Palo Alto, Calif., May 4, 2015 – HP today announced the [HP mt245 Mobile Thin Client](#) for easy and flexible cloud computing on-the-go. The new mobile thin client delivers pro-class user features and critical management software at an affordable price.

Familiar Windows Embedded Standard 7E tools, programs, and resources are all fully integrated into the lightweight, sleek design with a 14-inch diagonal HD screen. Mobile data defense is built in, helping prevent exposure to unwarranted outlets, and the Windows with Write Filter defends against unauthorized updates and viruses.

“Our new HP mt245 expands and enhances our mobile cloud computing portfolio with user-convenience fitted for both the end user and the IT admin,” said Jeff Groudan, worldwide director, Product Management, Thin Clients, HP. “Our innovative HP Thin Client management and experience optimization software, HP Device Manager, HP Velocity and HP Easy Shell, is praised by customers around the globe.”

[HP Device Manager](#) makes it easy to deploy, manage, and maintain the thin client installed base on-site or remotely. The [HP Velocity](#) software improves wired and Wi-Fi network performance and the end user experience by optimizing network traffic for remote desktops and streaming of remote applications. [HP Easy Shell](#),¹ the latest software addition, allows businesses to completely customize and simplify their cloud computing experience with Windows Embedded with an intuitive interface and targeted protection tools. HP mt245 comes preinstalled with HP Easy Shell v3.1 – featuring new system notifications and displays that simplify IT trouble-shooting and the user experience.

The HP mt245 is VDI-optimized and cloud-ready with Internet Explorer 11 to adapt easily into any ecosystem with today’s top ISV partners. The premium virtualization experience includes full enterprise receiver support, single sign-on support, multimedia redirection, and readily-available drivers and ports to print, scan and connect.

Price and Availability

- The HP mt245 is expected to be available in the Americas and APJ beginning in July. Pricing is available upon request.

About HP

HP creates new possibilities for technology to have a meaningful impact on people, businesses, governments and society. With the broadest technology portfolio spanning printing, personal systems, software, services and IT infrastructure, HP delivers solutions for customers' most complex challenges in every region of the world. - 1 HP Easy Shell is currently available on Windows Embedded Standard 7E, Windows Embedded Standard 7P, Windows Embedded 8 Standard, and Windows Embedded 8.1 Industry Pro.

FORWARD-LOOKING STATEMENTS

This press release contains forward-looking statements that involve risks, uncertainties and assumptions. If such risks or uncertainties materialize or such assumptions prove incorrect, the results of HP and its consolidated subsidiaries could differ materially from those expressed or implied by such forward-looking statements and assumptions. All statements other than statements of historical fact are statements that could be deemed forward-looking statements, including but not limited to statements of the plans, strategies and objectives of HP for future operations, including the separation transaction; the future performance if Hewlett-Packard Enterprise and HP Inc. if the separation is completed; any statements concerning expected development, performance, market share or competitive performance relating to products and services; any statements regarding anticipated operational and financial results; any statements of expectation or belief; and any statements of assumptions underlying any of the foregoing. Risks, uncertainties and assumptions include the need to address the many challenges facing HP's businesses; the competitive pressures faced by HP's businesses; risks associated with executing HP's strategy, including the planned separation transaction, and plans for future operations and investments; the impact of macroeconomic and geopolitical trends and events; the need to manage third-party suppliers and the distribution of HP's products and services effectively; the protection of HP's intellectual property assets, including intellectual property licensed from third parties; risks associated with HP's international operations; the development and transition of new products and services and the enhancement of existing products and services to meet customer needs and respond to emerging technological trends; the execution and performance of contracts by HP and its suppliers, customers, clients and partners; the hiring and retention of key employees; integration and other risks associated with business combination and investment transactions; the execution, timing and results of restructuring plans, including estimates and assumptions related to the cost and the anticipated benefits of implementing those plans; the execution, timing and results of the separation transaction or restructuring plans, including estimates and assumptions related to the cost (including any possible disruption of HP's business) and the anticipated benefits of implementing the separation transaction and restructuring plans; the resolution of pending investigations, claims and disputes; and other risks that are described in HP's Annual Report on Form 10-K for the fiscal year ended October 31, 2015, and HP's other filings with the Securities and Exchange Commission, including HP's Quarterly Report on Form 10-Q for the fiscal quarter ended January 31, 2015. HP assumes no obligation and does not intend to update these forward-looking statements.
