C.120 AWARD EVALUATION

- 1) Award under this procurement will be made to the technically acceptable offer which provides the best value to the Government, price and past performance considered. In determining the best value to the government, a trade-off analysis of the relative benefits of price and past performance will be performed, if necessary. Inherent in the trade-off analysis process is the assessment of risk, and its impact on contract performance.
- 2) <u>Technically Acceptable</u> In order to be determined technically acceptable, offers must meet or exceed the specifications, and other terms and conditions in the solicitation and any subsequent amendments. Offerors that propose other than the delivery date identified in the specification may still be determined technically acceptable if the delivery date proposed supports the Government's requirements. The offer must be determined to be technically acceptable before further consideration.
- 3) <u>Evaluation Factors</u> Offers that are determined to be technically acceptable will be evaluated in terms of price and past performance, with past performance being equal in importance to price. Past performance sub factors that will be considered are quality and delivery. Both sub factors are equal in importance.

- (b) The Contractor agrees to test any computer software and/or computer database(s) received from the Government for viruses prior to use under this contract.
- (c) Unless otherwise agreed in writing, any license agreement governing the use of any computer software to be delivered as a result of this contract must be paid-up and perpetual, or so nearly perpetual as to allow the use of the computer software or computer data base with the equipment for which it is obtained, or any replacement equipment, for so long as such equipment is used. Otherwise the computer software or computer database does not meet the minimum functional requirements of this contract. In the event that there is any routine to disable the computer software or computer database after the software is developed for or delivered to the Government, that routine shall not disable the computer software or computer database until at least twenty-five calendar years after the delivery date of the affected computer software or computer database to the Government.
- (d) No copy protection devices or systems shall be used in any computer software or computer database delivered under this contract to restrict or limit the Government from making copies. This does not prohibit license agreements from specifying the maximum amount of copies that can be made.
- (e) Delivery by the Contractor to the Government of certain technical data and other data is now frequently required in digital form rather than as hard copy. Such delivery may cause confusion between data rights and computer software rights. It is agreed that, to the extent that any such data is computer software by virtue of its delivery in digital form, the Government will be licensed to use that digital-form data with exactly the same rights and limitations as if the data had been delivered as hard copy.

(f) Any limited rights legends or other allowed legends placed by a Contractor on technical data or other data delivered in digital form shall be digitally included on the same media as the digital-form data and must be associated with the corresponding digital-form technical data to which the legends apply to the extent possible. In the event of a conflict, the terms and conditions of the contract shall take precedence over the standard commercial warranty.

- (a) For other than firm fixed priced contract line item numbers (CLINs), the Contractor agrees to segregate costs incurred under this contract/task order (TO), as applicable, at the lowest level of performance, either at the technical instruction (TI), sub line item number (SLIN), or contract line item number (CLIN) level, rather than on a total contract/TO basis, and to submit invoices reflecting costs incurred at that level. Supporting documentation in Wide Area Workflow (WAWF) for invoices shall include summaries of work charged during the period covered as well as overall cumulative summaries by individual labor categories, rates, and hours (both straight time and overtime) invoiced; as well as, a cost breakdown of other direct costs (ODCs), materials, and travel, by TI, SLIN, or CLIN level. For other than firm fixed price subcontractors, subcontractors are also required to provide labor categories, rates, and hours (both straight time and overtime) invoiced; as well as, a cost breakdown of ODCs, materials, and travel invoiced. Supporting documentation may be encrypted before submission to the prime contractor for WAWF invoice submittal. - (a) Each offeror's past performance shall be evaluated in accordance with FAR 13.106-2 or 15.305(a)(2), as applicable. The Department of Defense (DOD) has authorized use of PPIRS-SR for use by DOD activities during the acquisition of supplies and services. For purposes of this solicitation, contractor past performance will be based on data from PPIRS-SR. The offeror's quality and delivery classifications from PPIRS-SR will be used in conjunction with the offeror's references, the criteria in FAR 13.106-2 or 15.305(a)(2), as applicable, and other provisions of this solicitation.

- (c) Quality: PPIRS-SR collects quantifiable quality data from existing systems and uses that data to classify supplier performance by Federal Supply code or federal Services Code (FSA group). Based on comparisons among suppliers in a specific FSC group, PPIRS-SR sorts suppliers into color ratings representing the supplier's overall quality performance based on the following indices:

Color	Position Position
Dark Blue	Top 5% of suppliers in FSC group
Purple	Next 10% of suppliers in FSC group
Green	Next 70% of suppliers in FSC group
